

I am writing in response to the threat to the no call list. This truly has been a blessing for our household. We have not gotten soliciting calls since we have signed up on the list. I have never bought any product or participated in any program that was solicited over the phone, and I do not anticipate doing so. We were so pleased with the no call list that we were able to get rid of caller ID and change our phone service to the cheapest package available. This is saving us \$20 a month. Please help to keep our evenings quiet and stop soliciting phone calls.

Thank you,

Rose Gilson
